 Mon Aron Navarro

SUMMARY

Detail-oriented Information Technology recent graduate, with hands-on experience in full-stack development, quality assurance, and project management. Proven ability to build and validate production-style platforms by seamlessly translating stakeholder requirements into responsive, data-driven systems. Proficient in executing comprehensive test cases to ensure system integrity, with strong expertise in Agile workflows, technical documentation, and client collaboration.

EDUCATION

Bachelor of Science In Information Technology Specializing in Web & Mobile App Development
University of Santo Tomas | 2022 - 2026

PROFESSIONAL EXPERIENCE

Project Management Intern | Rakso CT

- Conducted continuous quality assurance checks to verify system functionalities following real-time code deployments.
- Managed daily client reports, extracting and inputting critical data into internal systems to maintain data integrity.
- Updated and refined Service Level Agreement (SLA) template documentation, ensuring meticulous attention to detail and clear process reporting standards for new client onboarding.

January 2026 – May 2026

CERTIFICATIONS & TRAINING

- CompTIA ITF+ (CompTIA)
- Gemini Certified University Student (Google Education)
- JIRA Quality Assurance Testing (Coursera)
- AI Fundamentals (Google)
- Gen AI: Beyond the Chatbot (Google)
- Agile Project Management (Google)

Client Projects

LakeView PH: An Interactive Web GIS for Visualizing and Downloading Lake Data in the Philippines

- Developed LakeView PH, a web-based GIS platform designed to support lake data visualization, monitoring, and management in the Philippines.
- Worked with a real-world client, Friends of the Seven Lakes Foundation, to gather requirements and align system features with organizational needs.
- Executed 100% of the functional test cases to validate GIS mapping visualizations, data downloading, and user input validation.

F.A.S.T Laboratories Payroll System

- Developed a computerized system to streamline employee compensation processing, significantly reducing manual calculation errors and improving administrative efficiency.
- Conducted rigorous quality assurance testing to validate the system's ability to accurately process attendance logs from pre-existing client files, ensuring flawless salary computations.
- Authored comprehensive technical documentation to map out system operations and workflows.

PAASCU Retirement System

- Led the front-end development of a comprehensive retirement management system, centering the user experience to ensure the platform was responsive, accessible, and aligned with end-user needs.
- Bridged the gap between technical execution and stakeholder expectations by validating system functionalities and ensuring data integrity prior to deployment.

SKILLS

- Development Tools & Frameworks:** GitHub, VS Code, Bitbucket, Jira, Flutter, Dart, Laravel, PHP, React.js, Python, JavaScript, HTML5.
 - Data & Analytics:** SQL (PostgreSQL, MySQL, MariaDB).
- Core Competencies:** Collaboration, Adaptability, Attention to Detail, Time Management, Data Extraction, Client Reporting.
 - Product Ownership & Agile:** Agile Methodologies, Stakeholder Communication, Defect Management, Technical Documentation, Requirements Gathering.
